

FRANCISCO TERÁN

FRONTEND DEVELOPER | REACT, TYPESCRIPT & WEB APPLICATIONS

tefans12@gmail.com | +54 9 381 336-2559 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Frontend Developer with 4+ years of experience building production web applications and Microsoft Excel add-ins using React, Office.js, Fluent UI, NestJS and AWS. Experienced in remote and hybrid product teams, API integrations, frontend observability and reliable user-facing workflows. Former mathematics and science tutor and practicing Catholic, with a strong interest in education, culture and products that contribute meaningfully to people's lives.

PROFESSIONAL EXPERIENCE

Frontend Developer | NoNighter LLC · United States · Remote

Jan 2025 - Jul 2026

- Developed production features for a Microsoft Excel add-in used in professional financial modeling workflows.
- Built React interfaces and Excel integrations with Office.js and Fluent UI, including task-pane and ribbon workflows.
- Integrated frontend functionality with NestJS services, AWS infrastructure and DynamoDB-backed data.
- Improved reliability and debugging through event tracking, error monitoring and frontend observability with Grafana Faro.
- Collaborated remotely with engineering and product teams to design and refine user-facing workflows.

Frontend Developer | Godubi · Tucumán, Argentina · Hybrid

Sep 2023 - Jan 2025

- Contributed to the frontend development of a collaborative platform connecting service providers and clients through shared work orders.
- Built interfaces for activity feeds, file management, task boards, calendars, meetings and real-time chat using Vue.js, Vuex and Vuexy.
- Implemented real-time communication and workspace updates with WebSockets.
- Centralized component-level data in Vuex, improving state consistency and reducing duplicated frontend logic.
- Collaborated with a backend developer to integrate payment-related workflows.

Freelance Web Developer | Independent · Remote

Oct 2021 - Sep 2023

- Built responsive websites and web applications with React and Node.js, translating client requirements into working features.

Private Tutor in Mathematics and Science

Jan 2016 - Sep 2023

- Adapted explanations and exercises to different learning needs, strengthening clarity, synthesis and communication of abstract ideas.

TECHNICAL SKILLS
